## Letter from the Presidents

---

On behalf of the Association of Professional Geoscientists of Nova Scotia, the Association of Professional Geoscientists of Ontario, and the Ordre des géologues du Québec, we are pleased to provide this Compensation and Benefits Study of our collective memberships.

Our three associations worked collaboratively to gather, analyse and present this snapshot of the geoscience profession in Eastern Canada. This study is an update from the 2010 survey that included just Quebec and Ontario.

This project was an opportunity for our three Associations to work closely together to create a product that is valued by our memberships. We thank those members in our associations who participated in the survey and shared their information that when aggregated gave us data that benefits all members.

We trust you will find this information relevant and useful.

Regards,

Jeff Parks, P.Geo., President, APGNS

Andrew Cheatle, P.Geo., President, APGO

Robert Wares, P.Geo., D.Sc., President OGQ

## Overview

---

The Compensation and Benefits Study is designed to provide geoscientists in Nova Scotia, Ontario and Québec with industry standard guidelines for compensation and benefits available to them. The results can be used for negotiating employment contracts, considering the costs and benefits of additional education or training or looking towards a change in job status.

The report is also a reference for students who are considering geoscience as a career and human resource departments as they determine policies and practices.

Compensation and benefit averages and ranges as well as other data are based on survey responses and are only as accurate as the data provided by those survey respondents. The response rate of 34% and margin of error 2.36% put this study at the high end of studies of this type.

The overall results can be interpreted with confidence. However, since compensation levels vary significantly with the demographic characteristics of the respondents and the organizational profiles of their employers, these factors should be taken into consideration when using this study as a resource for compensation planning. As well, results for sub-groups (e.g. based on respondent profile and work setting) should be interpreted with caution when the sample sizes are smaller.

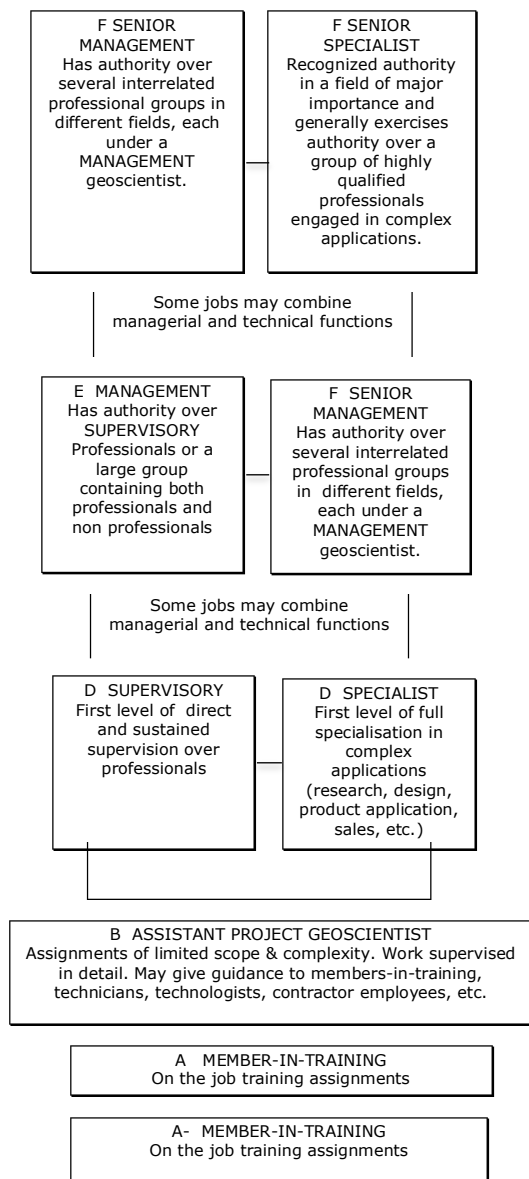

### **HOW TO USE SURVEY RESULTS**

To use salary survey data as a guideline it is important to consider all reported results and to keep in mind the following remuneration concepts.

- Income is affected by multiple factors such as seniority, education, level of responsibility (managerial or technical) or hardship conditions. (The Job Rating Flowchart on the next page should be used to estimate your "Job Rating" and the results reported in the tables in this summary should be closely noted).
- Salary levels vary among industry sectors.
- Total cash by year of graduation should only be used as a check on career progress relative to others of an equivalent age. Employers and members consistently want and use this information as a check on the more basic level-of-responsibility concept.

Association of Professional Geoscientists of Nova Scotia/Association of Professional Geoscientists of Ontario/Ordre des géologues du Québec  
Compensation and Benefits Study

## Job Classification Flowchart

## Annual Base Salaries by Level of Responsibility

Annual Base Salaries By Level of Responsibility								
Job Rating	Responses		Base Salary					
	#	%	Average	D. 1	Q. 1	Median	Q. 3	D. 9
A	*	*	*	*	*	*	*	*
B	34	3%	\$60,349	\$36,626	\$46,750	\$60,000	\$72,768	\$89,500
C	136	13%	\$71,625	\$46,940	\$56,556	\$68,000	\$82,188	\$97,150
D	240	23%	\$78,711	\$55,000	\$66,000	\$77,500	\$89,750	\$101,800
E	215	21%	\$97,976	\$65,000	\$80,000	\$97,000	\$110,000	\$133,800
F	146	14%	\$116,508	\$72,100	\$90,000	\$111,500	\$138,125	\$161,200
F+	255	25%	\$149,126	\$85,000	\$112,000	\$140,000	\$180,000	\$234,000

## Base Salary by Level of Education and Years Since Graduation

Salary Statistics	Years Since Graduation			
	2 - 10 years	11 - 20 years	21 - 30 years	31 or more
	B.A. or B.Sc. or Equivalent			
	N=120	N=99	N=140	N=90
Q1	\$55,250	\$70,000	\$90,000	\$85,750
Q2	\$71,500	\$89,960	\$114,930	\$120,000
Q3	\$84,000	\$110,000	\$144,000	\$173,800
Q4	\$115,000	\$220,000	\$300,000	\$375,000
	M.A. or M.Sc. or Equivalent			
	N=92	N=127	N=98	N=85
Q1	\$56,040	\$72,000	\$84,500	\$80,100

# Introduction

---

## Context

### Ordre des géologues du Québec

Established by law in 2001, the primary mission of the Ordre des géologues du Québec (OGQ) is to ensure the protection of the public by overseeing the practice of the profession in Québec. The Ordre des géologues du Québec is responsible for regulating the practice of its members. Through various mechanisms of the professional system, it ensures that the services provided by its members meet high quality standards and that their conduct complies with the rules of professional ethics set forth in the *Code of Ethics*

### Association of Professional Geologists of Ontario

The Professional Geoscientists Act, 2000 received Royal Assent on June 23, 2000 and established the Association of Professional Geoscientists of Ontario (APGO). APGO governs the practice of professional geoscience in Ontario and reports to the Minister of Northern Development, Mines and Forestry. The legislation protects the public and investors by establishing a regulated association of geoscientists with the power to admit only qualified persons, to encourage continuing professional competence, to discipline members for professional misconduct and to prevent unqualified individuals from practising.

### Association of Professional Geoscientists of Nova Scotia

The Geoscience Profession Act of 2002, established the Association of Professional Geoscientists of Nova Scotia (APGNS) with the mandate to regulate geoscience practice and to register geoscientists in Nova Scotia. APGNS members have demonstrated the academic training and practical experience which is required to ensure competent professional geoscience practice. The Act provides "right to title" and "license to practice" with respect to geoscience in Nova Scotia. APGNS maintains these privileges by setting and ensuring high standards of geoscience education and professional practice.

The requirements for admission into the profession are rigorous. The Act provides for sanctions to prevent the illegal practice of geoscience by unlicensed individuals and members who fail to uphold the Association's Code of Ethics.

## Goals and Objectives

The primary goal of the survey is to provide a report on the compensation and benefits of members of the three participating professional associations for the year 2012. As well, the report covers additional information of a more general nature. It adds to the baseline information collected in the past to serve as a basis of comparison over time, maximizes the response rate, ensures the objectivity of the report and protects the anonymity of the respondents.

---

## Method

---

All members of the three participating professional associations for whom an email address was available were asked to complete an online survey developed by Infofeedback in collaboration with them. Parallel English- and French-language forms were provided at the discretion of respondents.

Association members received a personalized email in memo style from David Carter, Executive Director and Registrar at APGNS, Gord White, Executive Director & Registrar at APGO and Alain Liard, Directeur général et Secrétaire at OGQ.

The emails explained the rationale for the survey and the benefits to respondents. To access their questionnaire, participants clicked on an encrypted link in the email. The invitation to participate email was sent on June 27<sup>th</sup> 2013. Reminders were sent on July 11<sup>th</sup>, July 25<sup>th</sup>, August 19<sup>th</sup> and August 21<sup>st</sup>. The survey was closed on August 26<sup>th</sup> 2013

The emails are presented in Appendix A, the questionnaire in Appendix B.

## Job Rating

A job rating was calculated for each respondent according to guidelines used by the Association of Professional Engineers and Geoscientists of Alberta (APEGA) and the Association of Professional Engineers and Geophysicists of British Columbia (APEGBC).

The scoring system is based on 11 job rating factors:

- duties
- education
- experience
- recommendations decision and commitments
- supervision received
- leadership authority and/or supervision exercised
- supervision scope
- physical demands
- job environment
- absence from base of operations and accident and health hazards

### SURVEY NOTES

- The salaries quoted in the tables are BASE salaries in effect in December 31, 2012 and includes the amount before any overtime, bonus, additional cash or compensation is given.
  - Commissions, fringe benefits, profit sharing are not included in the salary results, and are reported separately.
  - The statistical measures used in compiling the tables are the median, quartiles (Q3, Q1), deciles (D9, D1) and average. The median salary is the salary at which 50% of the respondent salaries are higher and 50% are lower. The Q3 salary is the salary at which 25% of the respondent salaries are higher and 75% are lower. The D1 salary has 10% of the salaries lower and 90% of the salaries higher. D9 salary has 10% of the salaries higher and 90% lower
-

Figure 1 illustrates the Job Rating Flowchart describing both the managerial and technical functions at each level. Comparisons of incomes are difficult to do directly since income is affected by multiple factors such as seniority, education, level of responsibility (managerial or technical) or hardship conditions. For this reason, we used a job rating scale to develop scores that reflect multiple factors. The method used is detailed in a separate document available from the Ordre des géologues du Québec or the Association of Professional Geoscientists of Ontario, see Job Rating section on the following page for a listing of factors.

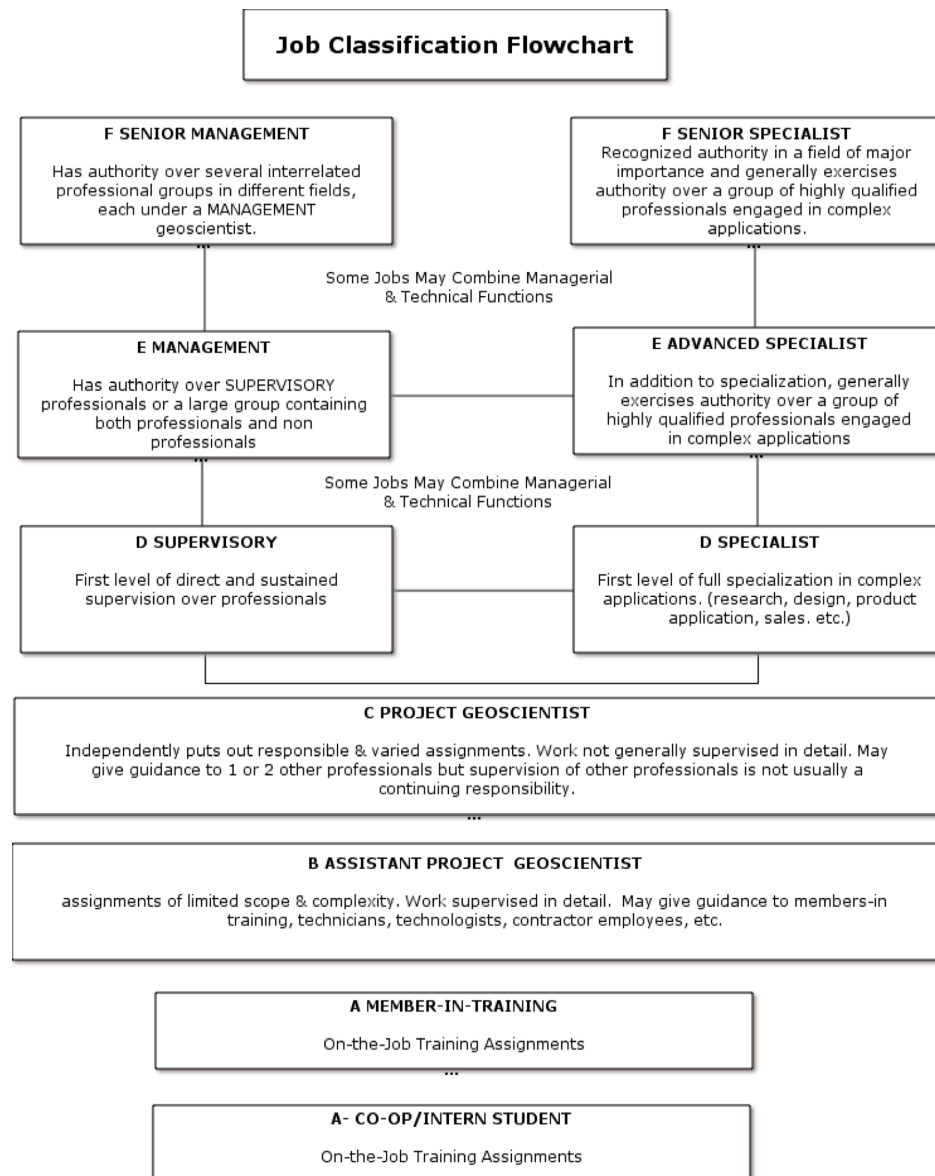

Figure 1 Job Classification Flowchart

Since jobs rated as "A-" identify students, they are not included in the study. Nor are retired or unemployed geoscientists.

## Results

### Response Rate and Responses

Of the 3,327 emails sent out, 1,123 questionnaires were filled out for an overall completion rate of 33.8%. This rate is consistent with a margin of error of 2.36% (how far off from a “true” score a particular result might be) 19 times out of 20 (the percent of time that the true percentage of the population would lie within the margin of error of 5%).

### Presentation of the Results

#### Table Totals

While 1,123 geoscientists participated in the survey, not all them answered each question. As a result, the total number of respondents represented in each table will be less than the total 1,123 survey participants. Percentages in the tables are based on the response to the question, or to a cross-tabulation of questions. In order to provide a comprehensive picture of the results, each table shows a total for the responses to the questions on which the table is based — “total for table” — and “total for survey” of 1,123. These details are not provided when the number of responses does not warrant it or where multiple cross tabulations are made in a table.

#### Rounding

Percentages are also detailed in the tables. Where percentages are calculated by column, they will add up to 100%, the only exception being cases of rounding error. This is illustrated in the table below.

#### Percentages

Readers can use the percentage figures in the tables to make comparisons between sub-groups, as the representation of the three participating organizations illustrated in survey sample.

	Number of Responses				% of Responses			
	Total	APGNS	APGO	OGQ	Total	APGNS	APGO	OGQ
Full-time salaried employee (>35 hours/week)	384	21	207	156	35%	30%	31%	43%
Full-time contract employee (>35 hours/week)	295	18	192	85	27%	25%	28%	23%
Part-time salaried employee (	11	*	*	7	1%	*	*	2%
Part-time contract employee (	31	*	18	11	3%	*	3%	3%
Owner (corporation)	289	19	196	74	26%	27%	29%	20%
Partner (legal partnership)	98	9	59	30	9%	13%	9%	8%
Self Employed (sole proprietorship)	*	*	*	*	*	*	*	*
Total for Table	1108	71	674	363				
Total for Survey	1123	73	683	367	101%	101%	100%	99%

The results show that 1,108 respondents of the survey sample total of 1,123 responded to the question about their work status, with 384 identifying themselves as full-time salaried employees. Of this number 21, 207 and 156 hold memberships in APGNS, APGO and OGQ, respectively.

The table also shows that 35% of the 1,108 respondents report this full-time salaried employment status, with 30%, 31% and 43% from APGNS, APGO and OGQ.

Asterisks appear when the number of respondents in a cell falls below five.

Using the example from Table 1, the results show that respondents from APGNS and APGO are relatively close to those for the entire survey sample: 30% and 31% compared to 35%. This status gets a higher weight in Québec where 43% of respondents report being full-time salaried employees.

Percentages related to “total for survey” indicates the proportion of the 1,123 respondents who responded to the questions on which the table is based.

Tables where more precise breakout categories — professional speciality, organization size, industrial sector, etc. — are reported often have percentages calculated by row, as illustrated in Table 92, reproduced below.

Number of Employees	Cell Phone - personal use of covered		Field Gear Allowance		Home Office Computers and/of Peripherals	
	#	%	#	%	#	%
1	20	24%	12	14%	11	13%
2-10	87	44%	52	27%	53	27%
11-50	140	52%	96	36%	66	25%
51-100	33	46%	28	39%	20	28%
101-500	79	53%	40	27%	31	21%
501-1000	39	51%	21	28%	19	25%
1001-5000	51	54%	33	35%	20	21%
Over 5000	60	57%	57	54%	29	27%
Total for Table	509		339		249	
Total for Survey	1123	45%	1123	30%	1123	22%

The results show that 87 respondents working in companies with 2 – 10 employees report having the personal usage of their cell phone paid by their employer. The percentage is calculated by dividing 87 by 196 — the number of respondents who work in organizations with 2 – 10 employees — indicating that 44% receive the benefit.

Footnotes indicate how the percentages are calculated.

## Statistical Indicators

### Average and Median

The average and the median are the two statistical indicators used to represent the results for salaries, consulting fees and additional cash compensation and to help make comparisons with peers.

The average is usually the most reliable and valid indicator. However, it can be distorted, especially where very high or low values — outliers — are included in the calculation. For this reason, we also present the median value, the result that is half way between the highest score and the lowest one.

Where the results are normally distributed, the mean and the median will be identical. As the differences between the mean and the median increase, the reader should consider the median as a result that is representative of the group.

## Respondent Profile

### Employment Status<sup>1</sup>

Table 1  
Current Employment Status in Primary Work Situation

	Number of Responses				% of Responses			
	Total	APGNS	APGO	OGQ	Total	APGNS	APGO	OGQ

Total for Survey	1123	73	683	367	99%	97%	99%	99%

<sup>2</sup> The Score and Level are the mean Job Rating and equivalent Job Class calculated for the respondents in the group. This information is useful when comparing two groups differentiated by one factor whereby any significant difference in Job Rating between the two groups may imply that the two groups are not fully comparable on other factors. Details of the Job Rating are discussed in the introduction.

## Academic Training

<sup>7</sup> The Score and Level are the mean Job Rating and equivalent Job Class calculated for the respondents in the group. This information is useful when comparing two groups differentiated by one factor whereby any significant difference in Job Rating between the 2 groups may imply that the two groups are not fully comparable on other factors.

## Level of Education and Years Since Graduation

Table 39 details the impact of level of education and years of experience on base salary. The columns show the results for five ranges of years since graduation. The rows are grouped into three levels of education and the base salary statistics within each level by quartiles, mean and median.<sup>8</sup>

Table 39  
Base Salary by Level of Education and Years Since Graduation

Salary Statistics	Years Since Graduation				
	One year or less	2 - 10 years	11 - 20 years	21 - 30 years	31 or more
B.A. or B.Sc. or Equivalent					
	N=5	N=118	N=239	N=70	N=17
Q1	\$44,000	\$55,250	\$80,000	\$90,000	\$100,000
Mean	\$59,870	\$71,103	\$109,908	\$141,422	\$136,112
Median	\$60,000	\$71,000	\$100,000	\$126,500	\$120,000
Q3	\$73,100	\$84,000	\$126,350	\$174,600	\$150,000
Maximum	\$85,000	\$115,000	\$300,000	\$375,000	\$350,000
M.A. or M.Sc. or M.B.A. or Equivalent					
	N=*	N=216	N=95	N=65	N=16
Q1	*	\$65,000	\$86,500	\$85,000	\$75,000
Mean	*	\$88,538	\$117,024	\$121,016	\$115,406
Median	*	\$80,000	\$112,000	\$114,600	\$95,000
Q3	*	\$101,940	\$143,500	\$150,000	\$157,500
Maximum	*	\$380,000	\$260,000	\$300,000	\$254,000
Ph.D. or Equivalent					
	N=*	N=42	N=44	N=34	N=17
Q1	*	\$80,000	\$80,000	\$95,250	\$80,000
Mean	*	\$94,381	\$123,986	\$125,286	\$104,945
Median	*	\$86,644	\$109,500	\$122,500	\$95,000
Q3	*	\$107,250	\$152,500	\$140,000	\$128,000
Maximum	*	\$180,000	\$270,000	\$262,000	\$212,571

The table shows that both level of education and the number of years of experience since graduation have a positive impact on base salary. They also interact so that rate of salary increase is accelerated as both education and experience move to the higher ends. The mean base salary values represent this pattern most clearly.

<sup>8</sup> Q1 (first quartile) is the value obtained at the first 25% of the population; Q3 (third quartile) at the 75% mark.

*Total Compensation, Level of Education and Years Since Graduation*

Table 77 shows that both level of education and the number of years of experience since graduation have a positive impact on total compensation. They also interact so that rate of salary increase is accelerated as both education and experience move to the higher ends.

Table 77  
Total Compensation by Level of Education and Years Since Graduation

Years Since Graduation	B.A. or B.Sc. or Equivalent			M.A. or M.Sc. or M.B.A. or Equivalent			Ph.D. or Equivalent

## Benefits

### Job Ratings

The results presented in Table 82 show the percent of respondents at each job rating level who receive a benefit when compared to all respondents at the same level. For example, 17% of respondents at the B-Level receive a cash benefit payment.

Table 82  
Benefits and Job Ratings

Invitation Email

GEOSCIENTISTS  
NOVA SCOTIA

Ordre des géologues  
du Québec

**To :**

**From :** David Carter, P.Geo. Executive Director and Registrar, APGNS  
Gord White, P.Geo. Executive Director & Registrar, APGO  
Alain Liard, P.Geo. Directeur général et Secrétaire, OGQ

**Date :** June 24, 2013

**Re :** 2013 Compensation and Benefits Survey

**Why Participate?**

How do your salary and benefits compare to those of your colleagues? Would this information be useful to you when thinking of a promotion, a raise, a new position, or consulting?

The APGNS-APGO-OGQ 2013 Compensation and Benefits Report will help you find the answers you need.

We invite you to help ensure the quality of the report by responding to the APGNS-APGO-OGQ 2013 Compensation and Benefits Survey. As a result of your participation, all APGNS-APGO-OGQ members will benefit. Can we count on your support?

**What about Confidentiality?**

An independent firm, Infofeedback Survey Services, has been mandated to conduct this study. Your answers will be held in strictest confidence. No individual respondent will be identified. For some questions, you will be invited to make comments. Since they will be made available to APGNS-APGO-OGQ, please do not put any identifying information in these responses unless you wish to be identified for those questions only.

**The 2013 Compensation and Benefits Report**

The full report will be out at the end of the summer and will be **free** to all members who participated. For those who did not participate, an executive summary will be made available.

**Time Requirements**

Most first-time respondents will take from 10 to 20 minutes to complete the survey. For those who have their surveys pre-populated the time requirement will be significantly reduced, see below "Looking Towards the Future".

**Save and Take a Break**

Can't finish the survey in a single session or need input from someone else? No problem! Your link to the survey allows you to return to it without losing any of the data already entered. Do not delete this email until you have completed the survey.

**Looking Towards the Future**

The survey is designed to minimize entries by participants so that data collected in 2013 will not have to be re-entered in 2015 when the study is repeated, only the changes since 2013 will need to be entered.

## Instructions

Below you'll find two links to the survey; one for the English language version; one for the French language version. When you click the link to the language of your choice, your questionnaire will appear. Please complete it by clicking on the buttons or boxes and entering your comments in the spaces provided. If you like, you can print out your questionnaire to keep a record of your responses. **When you have completed the entire questionnaire, do not forget to click on the "SUBMIT" button in order to record your answers.**

## 2012 Salary and Benefits Survey

### :: Navigation ::

Transfer times may vary with connection speed. If you have used the "Save & Take a Break feature" and your answers do not appear on page two, please click the "Refresh" button at the top of your Internet browser (Internet Explorer, Firefox...).

Instructions

Save & Take a Break

You are on the Questionnaire Page. Please work through the questions by clicking on radio buttons - ☐ - or checkboxes - ☐ - by clicking on the "click here to respond" button to select items from a list, or entering a comment in a text box.

Note that you will be able to skip over questions that do not apply to you.

Remember that you have to click the SUBMIT button at the bottom of the questionnaire to register your entries when you have completed the survey.

## Personal Profile and Job Description

### Employment Profile, Status

Please select the statement that best describes your current employment status in your primary work situation.

Click here to respond.

If you are a student or retired, [click here](#) to go to the submit button to complete your questionnaire. Otherwise, continue on to the next question.

**\*\* Warning for respondents with pre-populated surveys. \*\***

The response options for this question have been changed since the 2010 survey. If you answered "Other work" in 2010, the warning "Not a valid response in 2013" will appear instead. For this survey you must change your answer to either "Geoscience Work" or "Other Work". If you do not make the change, your pre-populated answer to this question will be discarded.

Please indicate whether your present job primarily involves:

<input type="radio"/>	Geoscience Work
<input type="radio"/>	Other work
<input type="radio"/>	Not a valid response in 2013

Is your current position considered to be at management level?

<input type="radio"/>	Yes
<input type="radio"/>	No

---

## Role

Please click the button that best describes your role in your **primary** work situation.

<input type="radio"/>	Field, mine or project Geoscientist
<input type="radio"/>	Manager
<input type="radio"/>	Teacher/Professor
<input type="radio"/>	Researcher
<input type="radio"/>	Advisor/Consultant
<input type="radio"/>	Other duty

If you answered "Other duty," please describe the sequence below.

<div></div>
-------------

## Academic Training

Please click the button to the right to identify the highest level of academic achievement you have attained.

[Click here to respond.](#)

Please note that the following question refers to the B.Sc. degree or equivalent. Respondents with pre-populated surveys may need to update their answer.

When did you obtain your BSc degree (or equivalent, if you have no university degree, indicate the year of graduation for your last degree)?

[Click here to respond.](#)

## Experience

Please click the button to the right to select the number of years you have been **working in your current field**.

[Click here to respond.](#)

Please click the button to the right to select the number of years you have been **working for your current primary employer**.

[Click here to respond.](#)

## Work Environment

Please use the following definitions to guide you in answering questions about your work environment.

### Private Practice

Private Practice involves the provision of professional services to one (or many) client(s) in exchange for the payment of fees to the geoscientist or his employer. Geoscientists who are self-employed or partners or employees of a company selling professionals services (a consulting group or service company) are deemed to be in private practice.

### Private Sector

The Private Sector includes all incorporated entities or companies held privately or with publicly traded shares (those in Private Practice are excluded from this group).

### Public Sector

The Public Sector includes all branches of government, crown agencies or university/educational institutions. Crown corporations (corporations owned by the state or government). This excludes private practice and the private sector.

Please select the **category** that best describes your **primary** work situation.

<input type="radio"/>	Private Practice: consulting group
<input type="radio"/>	Private Practice: testing laboratory
<input type="radio"/>	Private Practice: self-employed
<input type="radio"/>	Private Practice: environmental or groundwater services company
<input type="radio"/>	Private Practice: geophysical services company
<input type="radio"/>	Private Practice: other
<input type="radio"/>	Private Sector: mineral or hydrocarbon producing company
<input type="radio"/>	Private Sector: mineral or hydrocarbon exploration company (Junior)
<input type="radio"/>	Private Sector: other
<input type="radio"/>	Public Sector: provincial ministry or agency
<input type="radio"/>	Public Sector: federal department or agency
<input type="radio"/>	Public Sector: crown corporation
<input type="radio"/>	Public Sector: university or college
<input type="radio"/>	Public Sector: other

If you answered "Private Practice: other" or "Private Sector: other" or "Public Sector: other" go on to the next questions; otherwise, [click here](#) to continue on to the question on Organizational Size.

If you answered "Private Practice: other" please specify the type of company in the space below.

If you answered "Private Sector: other" please specify the type of company in the space below.

If you answered "Public Sector: other" please specify the type of company in the space below.

## Organizational Size

Please click the button to the right to select the number of employees in your **primary** work situation.

[Click here to respond.](#)

## Industrial Sector

Please select the statement that best describes the **industry** of your primary work situation.

<input type="radio"/>	Mineral or hydrocarbon resources: Inventory and mapping
<input type="radio"/>	Mineral or hydrocarbon resources: Mineral exploration, prospecting
<input type="radio"/>	Mineral or hydrocarbon resources: Oil & gas exploration
<input type="radio"/>	Mineral or hydrocarbon resources: Mining, mineral or hydrocarbon production
<input type="radio"/>	Mineral or hydrocarbon resources: Other
<input type="radio"/>	Environmental and engineering geology: Industrial minerals & materials
<input type="radio"/>	Environmental and engineering geology: Groundwater
<input type="radio"/>	Environmental and engineering geology: Engineering geology, geotechnics
<input type="radio"/>	Environmental and engineering geology: Contaminated site management
<input type="radio"/>	Environmental and engineering geology: Other
<input type="radio"/>	Other: Financial services
<input type="radio"/>	Other: Outside resources or environmental and engineering geology (includes educational institutions).

If you answered "Mineral or hydrocarbon resources: other," or "Environmental and engineering geology: other," go on to the next questions on this topic; otherwise, [click here](#) to continue to the section on Professional Specialty.

If you answered "Mineral or hydrocarbon resources: other," please give details below.

If you answered "Environmental and engineering geology: other" please give details below.

If you answered "Other, outside environment/engineering or geology," please give details below.

## Professional Specialty

### **\*\* Warning for respondents with pre-populated surveys. \*\***

If your survey is pre-populated and you answered "Septic systems" in 2010, please note that "Septic systems" has been removed from the list and "Land management/Environmental assessment" has been added. Please select another specialty or "Other" as your response in this survey. If you do not make the change, your answer to this question will be discarded.

Please click the button to the right to select the category that best describes your **main field** of practice.

[Click here to respond.](#)

If you answered "Other," please specify the professional specialty that best describes your main field of practice in the space below.

## Work Related Travel

Please click the button to the right to select the average number of **weeks** you spend yearly on overnight work-related trips.

Click here to respond. ↕

Where do you spend the majority of your time on your work-related trips?

<input type="radio"/>	Ontario
<input type="radio"/>	Québec
<input type="radio"/>	Atlantic Canada
<input type="radio"/>	Western and Northern Canada
<input type="radio"/>	Elsewhere in Canada
<input type="radio"/>	United States
<input type="radio"/>	Central and South America
<input type="radio"/>	Asia
<input type="radio"/>	Africa
<input type="radio"/>	Europe
<input type="radio"/>	Australia or Pacific

## Hours Worked

Please click the button to the right to select the number that best represents **hours in your base work week** in your primary work situation. **Excluding Overtime.**

Click here to respond. ↕

If you answered "More than 45", please specify the number of hours in the space to the right.

Use numbers only, no spaces,  
letters or other characters.

Please click the button to the right to select the number of **hours you typically work per week** (on average) **including overtime** in your primary work situation.

Click here to respond. ↕

If you answered "More than 60," please specify the number of hours in the space to the right.

Use numbers only, no spaces,

## Rotations

Does your present position involve working at a remote location on a **rotation**?

<input type="radio"/>	Yes
<input type="radio"/>	No

If you answered "Yes," go on to the next question on this topic; otherwise, [click here](#) to continue on to the section on Months Worked.

### ***Details of Rotation Sequence***

#### **\*\* Warning for respondents with pre-populated surveys. \*\***

The pre-populated response is not accurate. For this survey, you must choose the response that best applies to you for 2012. If none of the options apply to you, choose "Other". If you do not make the change, your answer to this question will be discarded.

Please click the button to the right to indicate the time worked in relation to the time off.

Click here to respond. ▾

If you answered "Other," please describe the sequence below.

### ***Details of Rotation Work Day***

#### **\*\* Warning for respondents with pre-populated surveys. \*\***

The response options for this question have been changed since the 2010 survey. For this survey you must change your answer. If you do not make the change, your answer to this question will be discarded.

Please click the button to the right to indicate **how many hours, on average, you typically work per day onsite** in your rotation sequence.

Click here to respond. ▾

## Months Worked

Please click the button to the right to select the number of months of paid employment in the year 2012, including paid vacation.

Click here to respond. ▾

## Advancement

How would you rate the opportunity for **your personal** advancement in your company?

<input type="radio"/>	Excellent
<input type="radio"/>	Good
<input type="radio"/>	Fair
<input type="radio"/>	Poor
<input type="radio"/>	Not Applicable

---

## Secondary Work Situation

A secondary work situation is one in which you spend the second most amount of time over the course of a year.

If you had a secondary work situation in 2012, go on to the next question on this topic; otherwise, [click here](#) to continue on to the section on Job Rating.

Is your secondary work situation related to geoscience?

<input type="radio"/>	Yes
<input type="radio"/>	No

If you answered "Yes," go on to the next question on this topic; otherwise, [click here](#) to continue on to the section on Job Rating. Role

Please click the button that best describes your role in your **secondary** work situation.

<input type="radio"/>	Field, mine or project Geoscientist
<input type="radio"/>	Manager
<input type="radio"/>	Teacher/Professor
<input type="radio"/>	Researcher
<input type="radio"/>	Advisor/Consultant
<input type="radio"/>	Other duty

If you answered "Other duty", please specify in the space below.

Please click the button to the right to indicate **the number of hours, on average, you typically work per week** in your secondary work situation.

Click here to respond. ▾

Please use the space to the right to indicate **the annual revenue** you typically make in your secondary work situation.

Use numbers only, no spaces, letters or other characters.

## Job rating

The following questions are designed to establish a Rating for the job you occupied in 2012 based on a number of factors. Note that this job rating system is used in many geoscience and engineering professional associations across Canada and its results facilitate comparisons of different jobs.

### *Duties*

This factor is concerned with the general nature of tasks assigned. The range includes duties performed in an entry-level job to those carried out at an advanced level of administration.

A summary of each option is presented in blue text. Hovering over the text will open up a window with a more detailed description of the responsibilities. **Please note: This is not a link, do not click on the text. Using most browsers, the cursor will change to a hand when it is in the right position and the text will appear a second or two later.**

Click on the button next to the description that best fits your job most appropriately. Carefully consider the relationship that your duties have to those of others in your organization. If you cannot decide between two adjoining descriptions, use the midpoint.

Please click the button that best characterizes your level of work and the duties you are assigned.

<input type="radio"/>	In training
<input type="radio"/>	Midpoint
<input type="radio"/>	Junior professional
<input type="radio"/>	Midpoint
<input type="radio"/>	Fully qualified professional
<input type="radio"/>	Midpoint
<input type="radio"/>	First level of supervision of other professional geoscientists or engineers or first level of full specialization.
<input type="radio"/>	Midpoint
<input type="radio"/>	Supervisor or specialist
<input type="radio"/>	Midpoint
<input type="radio"/>	Administrator or consultant authority
<input type="radio"/>	Midpoint
<input type="radio"/>	Senior manager or senior specialist

## Education and Experience Requirements

### Note:

A rather special situation develops with the factors of **education** and **experience**. Do not rate your position on the basis of level of education and years of experience you have attained.

You may have a Master's degree and thirty years of experience. However, if the job requires neither an advanced degree nor extensive experience, rating the job according to your own qualifications may result in a point score that is unreasonably high.

You should estimate the education and experience combination **required by the job** in your primary work situation.

### ***Education Requirement***

Please click the button that corresponds to the **minimum** university qualification in a geoscience or an engineering discipline required in order to begin your job.

<input type="radio"/>	No degree but with standing as Geoscientist-in-Training or registration in APGO or OGQ
<input type="radio"/>	B.Sc. or equivalent
<input type="radio"/>	M.Sc.
<input type="radio"/>	Ph.D.

### ***Experience requirement***

Please click the button to the right to select the minimum number of years in full-time, permanent geoscience or engineering work and/or work where a geoscience or engineering background would normally be required by a person starting the job. Take your count to the nearest whole or half year.

Click here to respond. ↕

## Recommendations, Decisions and Commitments

Select the category that fits your job most appropriately. If you cannot decide between two categories, use the midpoint.

<input type="radio"/>	Few technical decisions called for and these will be of routine nature with ample precedent or clearly defined procedures.
<input type="radio"/>	Midpoint
<input type="radio"/>	Recommendations limited to solution of the problem rather than end results. Decisions made are normally within established guidelines.
<input type="radio"/>	Midpoint
<input type="radio"/>	Makes independent studies, analyses, interpretations and conclusions. Difficult, complex, or unusual matters or decisions are usually referred to more senior authority
<input type="radio"/>	Midpoint
<input type="radio"/>	Recommendations reviewed for soundness of judgment, but usually accepted as technically accurate and feasible.
<input type="radio"/>	Midpoint
<input type="radio"/>	Makes responsible decisions not usually subject to technical review, on all matters assigned, except those involving large sums of money or long-range objectives. Takes courses of action necessary to expedite the successful accomplishment of assigned projects.
<input type="radio"/>	Midpoint
<input type="radio"/>	Makes responsible decisions on all matters, including the establishment of policies and expenditures of large sums of money and/or implementation of major programs, subject only to overall policy and financial controls
<input type="radio"/>	Midpoint
<input type="radio"/>	Responsible for long-range planning, coordination and making specific and far reaching management decisions. Keeps management associates informed of all matters of significant importance.

## Supervision received

This factor is concerned with the degree to which independent action is required or permitted. It will be limited by the amount of direction received from supervisors or provided through standard practice instructions, precedents or practice.

Select the category that fits your job most appropriately. If you cannot decide between two categories, use the midpoint.

<input type="radio"/>	Works under close supervision. Work is reviewed for accuracy, adequacy and conformance with prescribed procedures.
<input type="radio"/>	Midpoint value
<input type="radio"/>	Duties are assigned with detailed oral and occasionally written instructions as to methods and procedures to be followed. Results are usually reviewed in detail and technical guidance is usually available.
<input type="radio"/>	Midpoint value
<input type="radio"/>	Work is not generally supervised in detail and amount of supervision varies depending upon the assignment. Usually technical guidance is available to review work programs and advise on unusual features of assignment.
<input type="radio"/>	Midpoint
<input type="radio"/>	Work is assigned in terms of objectives, relative priorities, and critical areas that impinge on work of other units. Work is carried out within broad guidelines, but informed guidance is available.
<input type="radio"/>	Midpoint
<input type="radio"/>	Work is assigned only in terms of broad objectives to be accomplished, and is reviewed for policy, soundness of approach and general effectiveness.
<input type="radio"/>	Midpoint
<input type="radio"/>	Receives administrative direction based on organization policies and objectives. Work is reviewed to ensure conformity with policy and coordination with other functions.
<input type="radio"/>	Midpoint
<input type="radio"/>	Operates with broad management authority, receiving virtually no technical guidance and control; limited only by general objectives and policies of the organization.

## Leadership Authority and/or Supervision Exercised

This factor is concerned with the character of the supervisory responsibility.

Please select the category that fits your job most appropriately.

<input type="radio"/>	Has no supervisory role.
<input type="radio"/>	May assign and check work of one to five technicians or helpers.
<input type="radio"/>	May give technical guidance to one or two junior geoscientists, engineers or technicians assigned to work on a common project.
<input type="radio"/>	May give technical guidance to geoscientists or engineers of less standing or technicians assigned to work on a common project. Supervision, over other geoscientists or engineers not usually a regular or continuing responsibility.
<input type="radio"/>	Assigns and outlines work; advises on technical problems; reviews work for technical accuracy and adequacy. Supervision may require making recommendations concerning selection, training, rating and discipline of staff.
<input type="radio"/>	Outlines more difficult problems and methods of approach. Coordinates work programs and directs use of equipment and material. Generally makes recommendations as to the selection, training, discipline and remuneration of staff.
<input type="radio"/>	Reviews and evaluates technical work; selects schedules and coordinates to attain program objectives; and/or as an administrator, makes decisions concerning selection, training, rating, discipline and remuneration of staff
<input type="radio"/>	Gives administrative direction to subordinate supervision, and contact with the work force is normally through such levels rather than direct.

## Scope of Supervision

This factor is rated in terms of the total number of persons falling under your responsibility. Count your immediate subordinates together with all employees reporting to them, either directly or through other levels of supervision. If numbers vary seasonally or for other reasons, compute an average for the year. Exclude persons, such as students, for whose work you have no continuing responsibility. As well, do not count persons to whom you give occasional technical direction or functional guidance. In short, count persons only for whose work you are fully accountable.

Please select the number of subordinates for whom you have supervisory responsibility.	<a href="#">Click here to respond.</a>
--	--

## Physical Demands

This factor is concerned with the intensity and severity of the physical effort required of the job and with the continuity and frequency of that effort.

Of those listed below, select the level of exposure that most closely describes your situation.

	Not applicable	Once every six months	Once a month to once every six months	Once a week to once a month	Weekly or more often
Standing or moving about (inside position)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Walking over rough ground, climbing, etc. (outside position)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Heavy physical exertion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Uninterrupted visual concentration (as in drafting work)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Uninterrupted and intense mental concentration	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

## Job Environment

Please indicate the category that describes most clearly the conditions under which your work is normally carried out.

<input type="radio"/>	Office and comparable conditions.
<input type="radio"/>	Best field, plant or laboratory conditions. Little exposure to dirt, heat, noise, fumes or other disagreeable factors.
<input type="radio"/>	Average field, plant or laboratory conditions. Would cover positions that are generally conducted under clean and pleasant conditions, but with some exposure to noise, severe weather, dust, wetness, fumes or other disagreeable factors.
<input type="radio"/>	Conditions that are especially dirty, oily, noisy or otherwise disagreeable. Would cover positions involving continuous outside work in all weather.
<input type="radio"/>	Conditions involving continuous exposure to heat and fumes, cold and wet, or to combinations of other disagreeable factors.

## Absence from Base of Operations

Please select the category that most closely describes the demands of your job for traveling and being absent from your base of operations (in case of work in a remote location, count your home as your base of operations).

<input type="radio"/>	Seldom absent
<input type="radio"/>	Occasionally absent – perhaps a day a week on average
<input type="radio"/>	Frequently absent – commonly for a couple of days a week, sometimes longer, with considerable travel.
<input type="radio"/>	Absent more than 50 percent of the time, sometimes including weekends, with much travel
<input type="radio"/>	Absent for long periods from base of operations and/or travel on an almost continuous basis.

## Accidents and Health Hazards

Using the scale provided, please rate your job in terms of conditions that might result in accident or occupational disease. Consider the most prevalent hazard to which you are exposed, not some remote possibility.

### Hazards

	Not applicable	Once a year or less	Once every six months	Once a month	More than once a month
<b>Low:</b> unlikely that an accident or disease will occur	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Moderate:</b> accident or disease may occur but no preventative measures or special training are required	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>High:</b> accident or disease is likely to occur so that preventative measures or special training and possibly occasional drills are required	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Extreme:</b> accident or disease is very likely to occur so that, in addition, preventative measures and special training, on-going drills and training are required	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

## Compensation

### Salary/Annual Income

Please use the space to the right to enter your **annual base salary or annual income as of December 31, 2012**, i.e. the amount **before any overtime, bonus, additional cash compensation or benefit** is given

Use numbers only, no spaces, letters or other characters.

### Consulting fees

If you are in Private Practice and earn consulting fees as a self-employed consultant or as an employee of a consulting/service group, please provide information on the fees charged in the next two questions. Otherwise, [click here](#) to continue on to the section on Salary Adjustments.

Please use the space to the right to enter your **hourly charge out rate**.

Use numbers only, no spaces, letters or other characters.

Please use the space to the right to enter your **per-diem charge out rate**.

Use numbers only, no spaces, letters or other characters.

### Salary/Income Adjustments

Please indicate the approximate percentage change in your salary/income from December 31 2011 to December 31 2012.

Click here to respond. ▾

Please indicate the approximate percentage change you anticipate in your salary/income from December 31 2012 to December 31 2013.

Click here to respond. ▾

### Additional Cash Compensation

Additional cash compensation includes overtime, various premiums such as for remote work, cash bonuses, performance/merit bonuses, commissions, share of profits or other forms of additional cash compensation.

If you receive additional cash compensation, go on to the next question on this topic; otherwise, [click here](#) to continue to the section on Total Compensation.

#### Overtime Compensation

Check **all the boxes** that apply to describe the overtime compensation for your job.

<input type="checkbox"/>	No overtime compensation is provided
<input type="checkbox"/>	Overtime is compensated by cash payments
<input type="checkbox"/>	Overtime is compensated by time off in lieu of a cash payment
<input type="checkbox"/>	Overtime is compensated by a combination of time off and cash payments

### Other Cash Compensation

A summary of each category of other cash compensation is presented in blue text. Hovering over the text will open up a window with a more detailed description of the responsibilities. **Please note: This is not a link, do not click on the text. Using most browsers, the cursor will change to a hand when it is in the right position and the text will appear a second or two later.**

Please indicate all additional types of cash compensation received for the year. (Click all boxes that apply.)

<input type="checkbox"/>	Remote locations or difficult conditions premium
<input type="checkbox"/>	Cash benefit payments
<input type="checkbox"/>	Performance/Merit Bonus
<input type="checkbox"/>	Commissions
<input type="checkbox"/>	Share of Profit
<input type="checkbox"/>	Payment in shares of the company
<input type="checkbox"/>	Other Payments

If you received "other payments," please specify the type in the space below.

--

## Total Compensation

Please use the space to the right to indicate the **total amount of income received** in 2012: base salary + overtime + other cash compensation.

Use numbers only, no spaces, letters or other characters.

### *Non cash compensation as Stock options*

**Stock Options:** Do you receive Stock Options?

<input type="radio"/>	Yes
<input type="radio"/>	No

## Benefits

### *Retirement Benefits*

If you received retirement benefits, go on to the next questions on this topic; otherwise, [click here](#) to continue on to Health and Insurance Benefits.

Which of the following retirement benefits do you receive? (Click all that apply.)

<input type="checkbox"/>	A defined benefit pension plan
<input type="checkbox"/>	Employer contribution to your RRSP
<input type="checkbox"/>	Another option

If you answered "another option," please specify your answer in the space below.

## Health and Insurance Benefits

If you received health and insurance benefits, go on to the next question on this topic; otherwise, [click here](#) to continue on to the section on Fringe Benefits.

Please check **all** the boxes that describe the health and insurance benefits you receive.
